A New World Needs a New Way of Thinking

The world is changing faster than it ever has. To succeed in the New World, you need to go beyond knowledge – learning to think differently. Learning to solve problems. Learning to ask the right questions.

We call it New World Thinking.

The IIE's Varsity College Difference

No doubt you've done your homework and looked at a few educational institutions and what they offer. Quite a lot of choices, aren't there? You've probably skimmed through a few brochures like this one and asked yourself: What should I study? Where should I study?

But the real question to ask is this: is the institution you're contemplating studying at stuck in the past? Or will it give you the skills you need to succeed in the New World?

At The IIE's Varsity College, we go beyond knowledge to teach you skills like critical thinking and problem solving. We teach you how to think.

Because that's what's going to give you the edge in the New World.

Everything you need to know about The IIE's Varsity College is in this brochure including:

- The IIE Full-Time qualifications available
- Our progressive approach to teaching and learning
- Our holistic student offering
- Finance options for your studies

At a Glance

The IIE's Varsity College was founded over 25 years ago. Today it is at the forefront of private tertiary education in South Africa.

- The IIE offers postgrads, degrees, diplomas and higher certificates at Varsity College campuses.
- The IIE has established a partnership with The Open University (OU) and is accredited by the British Accreditation Council (BAC).

Varsity College and The IIE

Varsity College is an educational brand of The Independent Institute of Education (The IIE), the most accredited private higher education provider in SA and responsible for everything academic at The IIE's Varsity College.

Through The IIE's accreditation with the British Accreditation Council (BAC), you can be assured that your learning experience at The IIE's Varsity College meets international best practice standards.

A Proven Track Record

Our national pass rate is 88%, our distinction rate is 27% and our drop-out rate is less than 15% – impressive considering the national dropout rate is over 40% for all higher education institutions.

Work Life Balance

As much as we're proud of our academic excellence, we're not all work and no play. Life's about balance – which is why we have such a great sport and social scene. We don't just want to get you ready for the new working world, we want to help prepare you for life.

Thinking for a New World

Internet connectivity, the ease of information access, social networks and mobility have transformed the working world, and thus how we teach and learn. The New World brings with it not only a new set of challenges, but infinite possibilities.

Success is no longer about knowing the answers, but knowing the right questions to ask. It's not just about learning – but learning to think.

Today's employers are looking for a new set of skills. In fact, the most sought after skills are critical thinking and problem solving. Which is precisely what we focus on – because we know these are the skills that will help you succeed in the New World.

Our Approach to Learning

Ours is a more progressive approach, focused on the skills you need to succeed in the New World. Academic life, we believe, should be as relevant and participative as possible – a dynamic, two-way exchange. This enables you to:

- Engage with subject material
- Build understanding

- Develop critical thinking and problem solving skills
- Ask the right questions

This collaborative approach teaches you how to think, and to ask the right questions. We call it New World Thinking.

The VCBlend

Changes in the way the world works have altered how we approach teaching.

We've moved away from the traditional lecture room teaching style towards what we call the **VCBlend** – a teaching strategy where the lecturer is no longer the focus; rather, the student is at the centre of the learning process.

The student participates in the learning process with the lecturer as a facilitator, ensuring that the student is no longer passive, but actively engaged.

The **VCBlend** develops personalised learning skills and comprises:

- Face-to-Face (F2F) Sessions
- Online Sessions
- Guided Self-Study

... all geared towards students becoming independent, self-directed learners.

VCLearn

To best support the **VCBlend**, we've introduced an internationally renowned online Learning Management System re-branded as **VCLearn**. **VCLearn** is an online learning platform that enables students to apply theory to real life scenarios.

Students and lecturers can focus on Digital literacies and fluencies as new digital learning media and Web 2.0 and 3.0 applications are incorporated into **VCLearn**.

Lecturers can draw on technologies during lectures and engage with students, both inside and outside the lecture room through online spaces like **VCLearn** and Blogs.

Every student has a voice in the learning community and an opportunity to collaborate, create and critically reflect. The result? A set of skills that will help students demonstrate their theoretical knowledge in practice – a decided advantage in the job market.

MOOCs

These are Massive, Open, Online Courses offered by highly reputable institutions – including The IIE’s Varsity College. The courses range from a few days to a few months and are either self-paced or guided by an online tutor.

MOOCs grow your personal and professional skills ... and look pretty good on a CV too!

We offer 3 MOOCs:

A Work Readiness Programme – ideal for exit level students but open to anyone interested in

topics such as Personal Branding, Social Media and Emotional Intelligence.

Web and Digital Literacies – 6 activity-driven learning units designed to grow digital know-how and develop skills critical for the New World.

Digital Citizenship – fluencies and skills needed to be a digital citizen in the New World.

Access the MOOCs via the **VCLearn** platform.

Guided Self-Study

Key to the **VCBlend** is access to technology for students and lecturers alike. All campuses have Fibre, or an equivalent, creating high-speed Campus Hotspot Zones (CHZs).

CHZs ensure connectivity and enable the **VCBlend** beyond the lecture room, creating an authentic blended learning experience.

To support this new learning mode, students are encouraged to BYOT – Bring Your Own Technology.

For those who don’t own terminals, computer labs and devices in the library ensure access.

The IIE's VC Mobile App gives direct access to **VCLearn** anytime, anywhere on our CHZ.

Through cloud-based learning, mediated online and interactive F2F sessions, students are encouraged to access **VCLearn**, making them active participants in the learning process.

The LIFE

What The IIE is and why it's so important

The IIE is the The Independent Institute of Education.
Every Varsity College campus is an IIE campus.

The IIE is responsible for the academic governance and quality assurance of all programmes delivered through all its campuses.

“The IIE is the most accredited private higher education institution in the country, which is testament to our commitment to quality and rigour.”

Dr Felicity Coughlan, Director of The IIE

The IIE is:

- Registered with the Department of Higher Education and Training as a private higher education provider and is part of ADvTECH Ltd, a public company listed on the Johannesburg Stock Exchange (JSE).
- Responsible for:
 - The assessment and certification of students
 - Developing curricula and overseeing its delivery thereof
 - Ensuring that the correct teaching and learning processes are implemented and adhered to by The IIE's Varsity College

The IIE aims to ensure that all students:

- Are employable
- Have a broad range of analytical skills, including work readiness skills
- Value diversity
- Have high ethical values
- Become innovative, entrepreneurial and creative New World thinkers

Employability is a priority for students. The IIE uses an innovative graduate tracking study to monitor the employability of its graduates. This information is used to inform the relevant Senate Committee and shape the way future curricula and student support programmes are developed.

The IIE has six Academic Faculties

- Information and Communications Technology
- Commerce
- Social Sciences
- Humanities
- Education
- Engineering, Science and Health

Each has its own Faculty Board. By working with Faculty Programme Advisory Committees the faculties ensure each programme's curriculum meets external, industry and academic standards.

Committees consist of academics, professionals and business experts who provide real-world insights, ensuring that what we teach is relevant and up to date.

The BAC

The British Accreditation Council (BAC) is an independent authority in the United Kingdom which accredits private providers globally including Greece, Switzerland, Singapore, India, Mauritius, and the United Arab Emirates.

The BAC accredited The IIE in 2014, and in 2017 The IIE had its accreditation status confirmed as an Independent Higher Education Institution.

“South African students need to know when they select a private higher education institution that the standards are equivalent to a public university.

Our students get this from our extensive local accreditation and registration. Our students also benefit from knowing that we meet international standards too. Locally and internationally we have demonstrated the quality of what we offer.”
Dr. Coughlan, Director of The Independent Institute of Education.

Students can be confident that their learning experience meets international best practice standards.

For more information visit www.the-bac.org.

The Senate and its Committees

The Senate is the senior decision making body that determines the policies and regulations that govern all things academic at The IIE’s Varsity College.

It is chaired by the Director, who is also the Head of The IIE. The Director is assisted by the Registrar, who is the Secretary of Senate.

The remaining Senate seats are occupied mostly by academics and includes representatives from The IIE’s Varsity College. Senate Committees oversee standards, teaching, learning, curricula and assessment for over 90 accredited higher education qualifications. The IIE’s Varsity College is represented on each of these committees.

Our Partners

We've established meaningful relationships with corporate and education partners. They are recognised as the best in industry-specific education nationally and, in some cases, internationally and they allow us to provide students with a range of qualifications and career choices.

The Open University (OU)

The IIE has strengthened its partnership with the UK-based Open University (OU) through a collaboration that changes the way students access distance learning opportunities in South Africa and the rest of the continent.

The OU is a world leader in modern distance learning and is the largest and only distance education institution in the UK. It is a pioneer of technology-enhanced learning methods, enabling people to achieve their career and life goals, studying at times and in places that suit them.

The partnership provides for:

- The joint exploration of possibilities for ongoing collaboration, including the increased integration of The OU educational methodology into The IIE qualifications,

- The joint development of opportunities to participate in the growth of the Higher Education sector in Africa; and
- On-going opportunities for IIE students to have their credits recognised for access to both undergraduate and postgraduate qualifications abroad.

The South African Institute of Chartered Accountants (SAICA)

SAICA is the foremost accountancy body in South Africa and one of the leading institutes in the world, playing an influential role in a highly dynamic business sector.

SAICA accredits programmes that lead to the qualification of Chartered Accountants in South Africa through academic review, which comprises the accreditation and monitoring of education programmes leading to SAICA's qualifications.

The process is a partnership between the education provider and SAICA. In November 2016, SAICA accredited The IIE's Bachelor of Accounting degree.

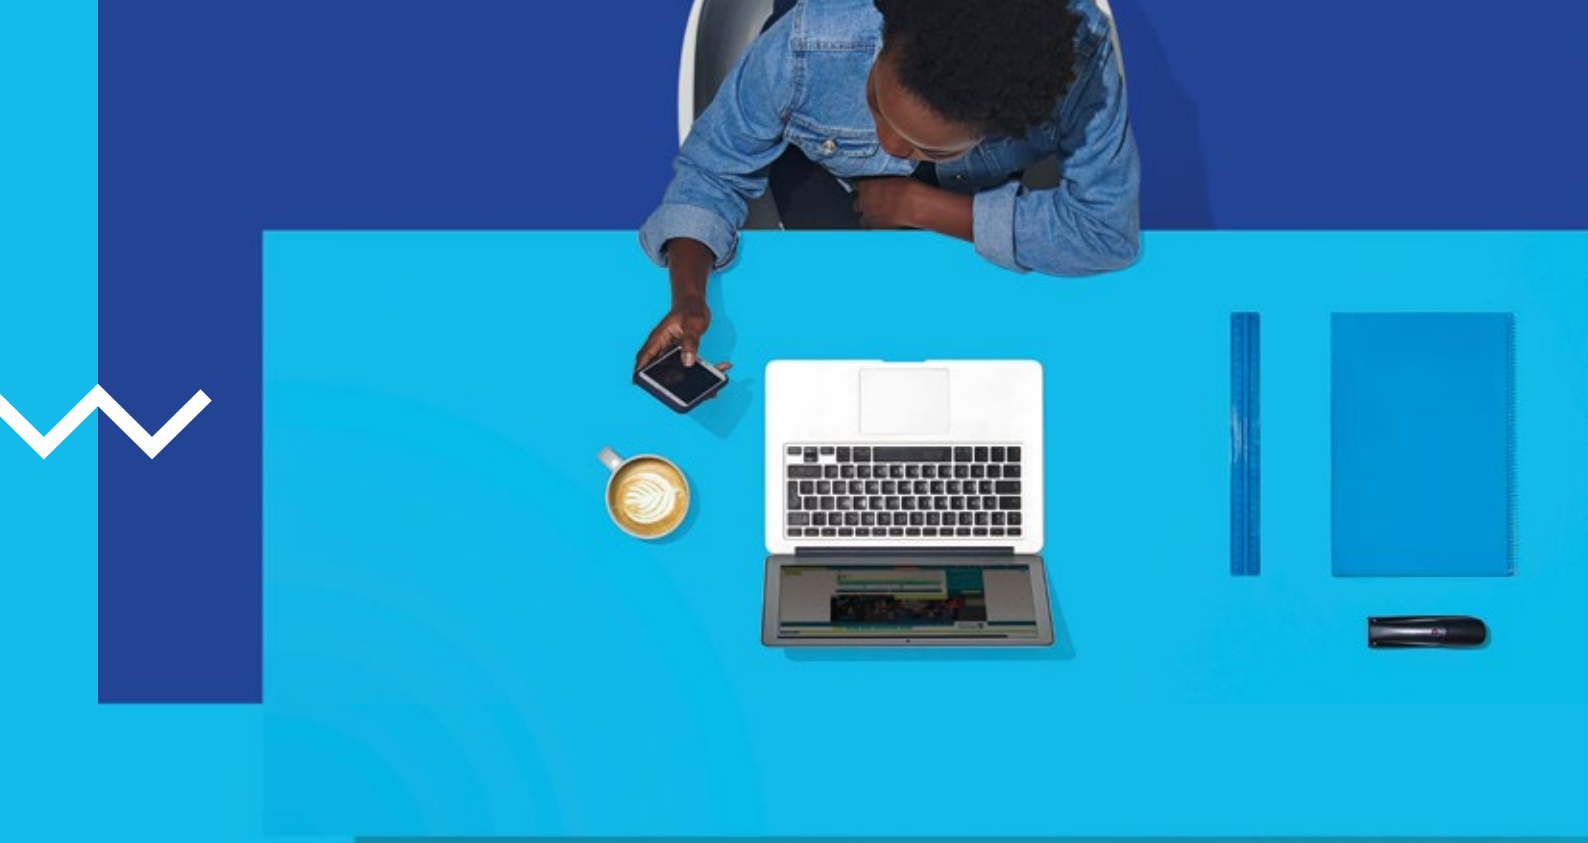

www.saica.co.za

Academic Schools

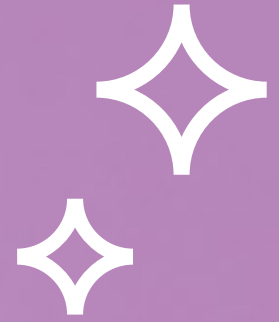

There are 6 Academic Schools at The IIE's Varsity College, all aligned to The IIE's academic governance, structures and disciplines and part of their faculties:

- Management
- Finance and Accounting
- Law
- Education
- Psychology and Communication
- Information Technology

School of Management

IIE Faculty of Commerce

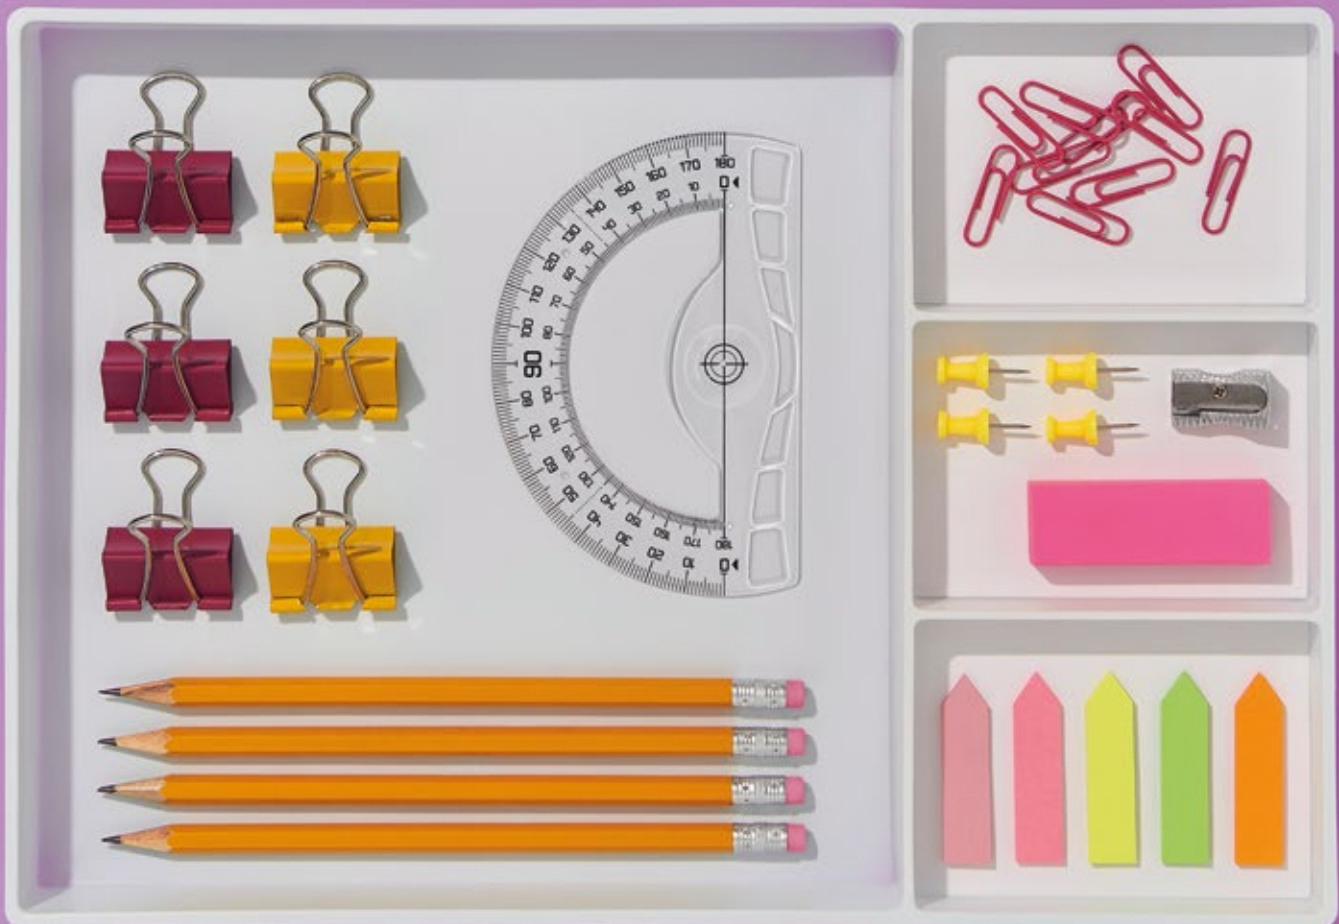

Connect with like-minded individuals, engage with skilled experts and create foundations for future career success.

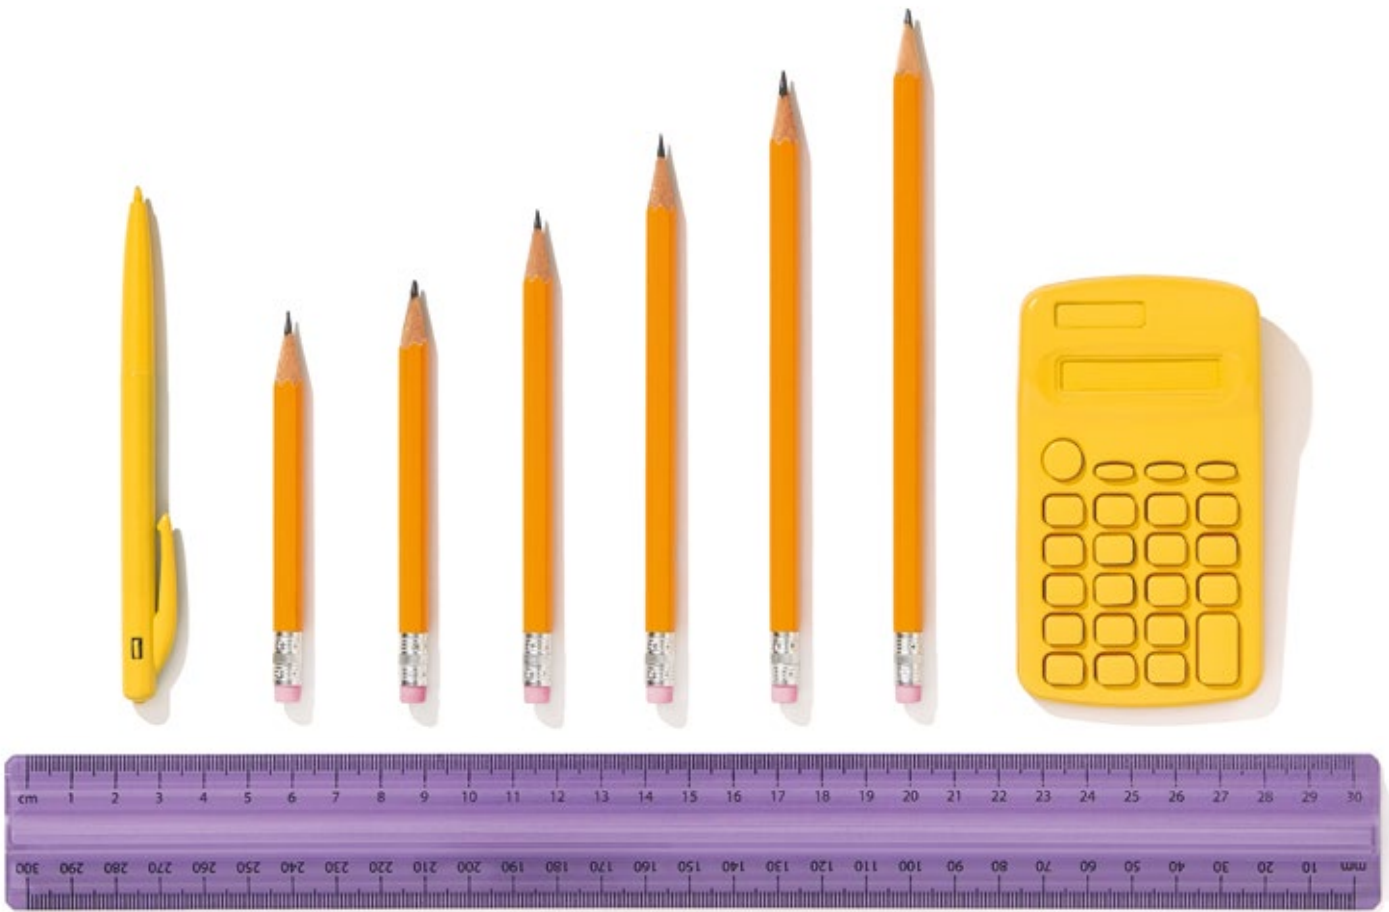

This is the largest School and you can study full-time, part-time or online depending on which programme or qualification you choose.

Higher Certificates, Diplomas, Bachelor Degrees and Postgraduate Qualifications provide a

framework to follow and will help map your progress as you journey into the world of business.

This School provides a dynamic and highly respected academic environment with lecturers who have both academic and industry knowledge to ensure the learning experience is meaningful and relevant. Our online learning management system supports your access to real world case studies, examples and discussions.

School of Finance and Accounting

IIE Faculty of Commerce

The New World of professional accounting is stimulating and fast-paced. Attention to detail and the ability to process financial information quickly and accurately is highly valued and handsomely rewarded.

The School of Finance and Accounting delivers student-centric accounting programmes that facilitate learning in all disciplines.

Study content relevant to your chosen qualification and be inspired by professional and qualified lecturers who are passionate about training accountants.

Develop lifelong learning skills to prepare you for the highly competitive, ever-evolving world of business.

The flagship IIE Bachelor of Accounting degree (BAcc) is specifically designed to cover the core content of the educational component of the SAICA Competency Framework of the Chartered Accountancy profession.

School of Law

IIE Faculty of Social Sciences

Become a social engineer of change. Be part of the global business and legal world. Thrive in the ever-changing landscape of law.

School of Law students take an active role in creating meaningful change in the careers they pursue, developing skills in trial advocacy, critical reasoning, conflict resolution and team work. Small classes encourage debate and discussion

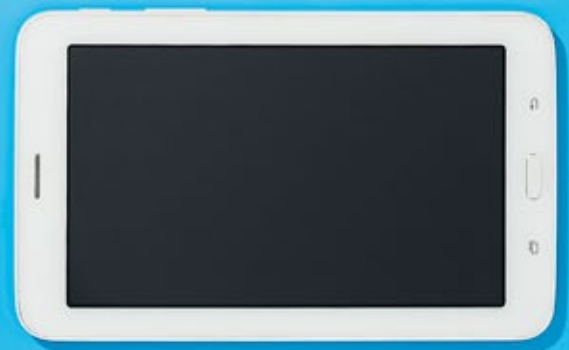

on topical legal issues, while Law Evenings, Career Fairs and public lectures give students the opportunity to network.

Our vision is to produce high performing, quality graduates equipped to thrive in the New World of the legal profession.

School of Education

IIE Faculty of Education

Teaching is more than a career – it's a vocation. The School of Education is dedicated to preparing young, dynamic and skilled future teachers for a successful and rewarding career in education.

The 21st century classroom is demanding, but innovative teaching methods and trend-setting approaches set The School of Education apart. Aspiring teachers are mentored by a passionate, professional and experienced academic team and

will receive a thorough grounding in the key disciplines of each teaching phase.

The IIE qualifications include a Teaching Experience component which exposes students to diverse educational settings, giving them the practical skills critical to excellence in teaching. The experience also includes a Service Learning component which gives the students a unique opportunity to demonstrate their civic responsibilities.

School of Psychology and Communication

IIE Faculty of Humanities

Understanding people dynamics is crucial in practically every industry – from business and education to government and health provision.

Graduates from the School of Psychology and Communication are equipped with advanced written, spoken, analytical, critical thinking,

problem solving and digital skills – so they're able to critically engage with current social issues and trends, both locally and internationally.

It's these skills that make our graduates so highly sought after in the New World.

School of Information Technology

IIE Faculty of Information and Communications Technology

Few industries are as dynamic and fast paced as the Information and Communications Technology (ICT) sector. It's no surprise that the industry is experiencing a shortage of skilled employees.

What's unique about this School is that it continuously engages with the IT industry, keeping up to date with rapidly changing technologies and

adapting our curricula accordingly. This School uses the latest technologies in its classrooms making for a relevant, blended learning approach that promotes practical learning. Lecturers consult and work in the industry and share a wealth of experience – which helps to produce industry-ready IT graduates, ready to succeed in the New World.

Academic Life

Academic Staff

Our lecturers are highly qualified and, in many instances, actively engage with their professional field. As industry experts, they are committed to combining industry knowledge with teaching and learning strategies, giving students insight into the world of work.

Lecturers connect in a vibrant online community to keep abreast of new technologies, to enhance learning and to network globally on progressive teaching methods. They are guided by a campus-based support team which includes a Technology Enhanced Learning Champion (Innovative Educational Technologist) and teaching experts.

Campus academic teams stay up to speed with the best teaching practices. Our teaching team is provided with development opportunities throughout the year, supported by a peer review process which inspires lecturers to reflect and improve on their teaching practice.

We make it our business to ensure that our lecturers are qualified and best equipped for their role.

Smaller Classes

We keep our classes small – on average only 60 students, with the largest class being less than 100. This ensures that you aren't an anonymous face in a 500-seater auditorium. Smaller classes encourage you to develop relationships with your lecturers and peers, ask questions, formulate arguments, express opinions and develop critical thinking skills.

Keeping you on Track

Progress is monitored by a Programme Coordinator – a lecturer who keeps an eye on your overall academic performance and can assist you with any challenges.

Putting it into Practice

Our Work Integrated Learning (WIL) programme gives you, guided by your WIL lecturers, the opportunity to step outside of the lecture room and gain real insight into their chosen field of study. There are 2 components: Simulated Activity and Working in Industry – and it's not uncommon for WIL students to be offered permanent positions post-graduation.

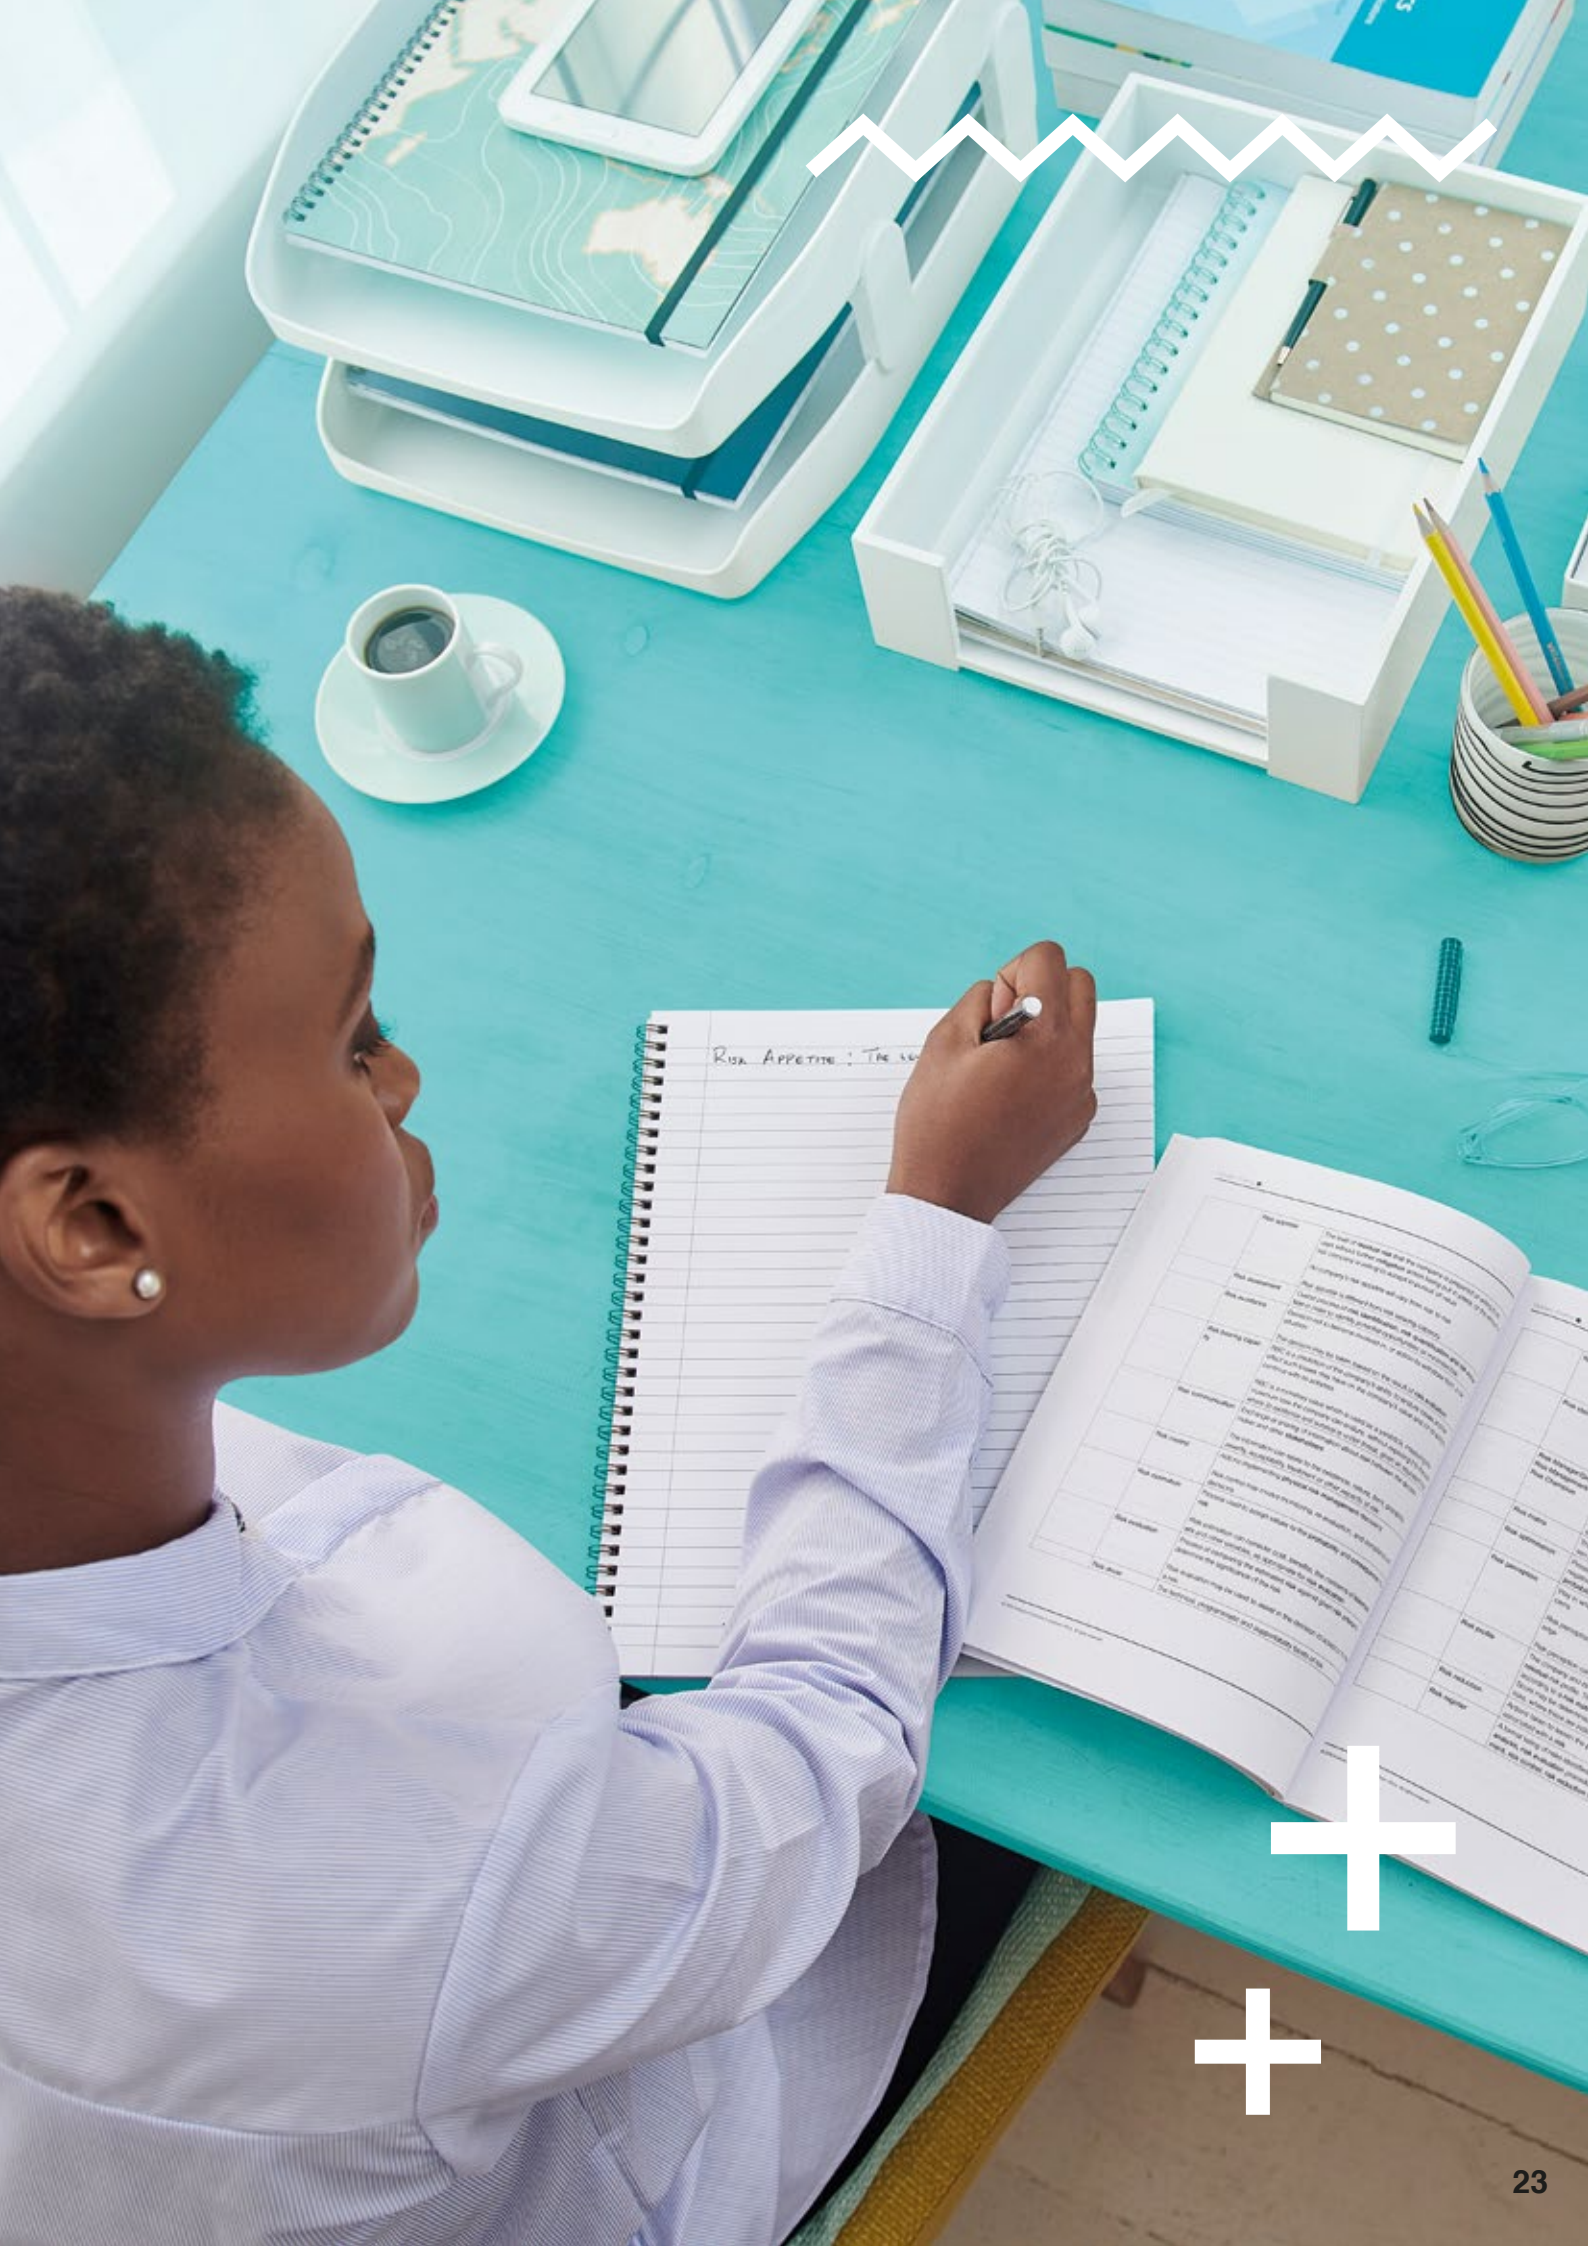

Up to Speed

You have access to a number of other support platforms: our online Career Centre, Student Hub and online research resources and eBooks. The Student Portal allows you to access timetables, programme information, financial statements and online discussion forums with lecturers.

Support

VC Assist which is accessible via the Student Hub is an online customer service platform which will provide you with direct access to the VC Customer Relations Centre. You are able to log queries ranging from timetable to finance and admission queries.

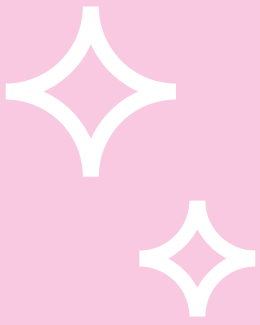

Risk Appetite: The...

Risk appetite	The level of risk that the organization is willing to accept in order to achieve its strategic objectives.
Risk tolerance	The maximum level of risk that the organization is willing to accept in order to achieve its strategic objectives.
Risk capacity	The maximum level of risk that the organization is able to absorb without being impaired.
Risk bearing capacity	The maximum level of risk that the organization is able to bear without being impaired.
Risk management	The process of identifying, assessing, and controlling the various risks that the organization faces.
Risk control	The process of implementing measures to reduce the level of risk to an acceptable level.
Risk avoidance	The process of avoiding risks that are not in line with the organization's risk appetite.
Risk reduction	The process of reducing the level of risk to an acceptable level.
Risk retention	The process of retaining risks that are within the organization's risk appetite.
Risk transfer	The process of transferring risks to a third party, such as an insurance company.

Academic Teams

Head: Academics and Programme Managers

At the helm of the academic team is the Head of Academics and the relevant Programme Manager (PM) of each School. By tracking results and monitoring feedback from lecturers and students, the Head of Academics and PMs ensure effective teaching and learning in the lecture rooms. The Head of Academics is responsible for the collective academic delivery on the campus and works closely with PMs to ensure appropriate and relevant teaching, learning and support.

Academic Support

Working closely with the Head of Academics and PMs are Teaching and Learning Specialists – passionate education experts who collaborate with students and lecturers.

Students need the skills and academic literacy to develop their ability to write effectively using informed sources, and to reflect critically on new knowledge. Should you find yourself facing challenges, a member of the academic team is there to assist you at any time.

Whether it's time management, study skills, assignment writing, applying the correct referencing techniques to avoid plagiarism, or exam preparation, students who use these services tend to show a marked improvement in their results and reap the benefit of more personalised attention.

Our Teaching and Learning Specialists also identify and nurture best teaching practice in lecturers, and conduct peer reviews evaluating teaching skills with the aim of improving delivery to students.

Students have the opportunity to evaluate lecturers' teaching and the feedback is used to assist lecturers to enhance the learning experience and to hone in on their lecturing skills.

The IIE's Varsity College is always at the forefront of the best learning and teaching practices, delivering the highest quality lecture room experience to ensure your academic success.

Permanent Lecturers

Each Academic School has a team of qualified permanent lecturers. Lecturing daily means that our lecturers constantly engage with their subject matter. This enables them to provide the necessary support when students struggle with challenging sections of the curriculum.

Student Relations Managers (SRMs)

Students occasionally find themselves in crises, struggling with relationship or family challenges or even grappling with issues like drug or alcohol addiction, pregnancy fears, study stress, gender issues or HIV/AIDS concerns.

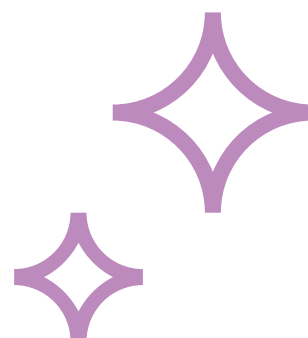

SRMs are qualified on-campus counsellors who listen, understand and treat conversations with the utmost confidentiality. They are registered health professionals who promote the holistic development of students, focusing on trauma support, wellbeing, citizenship and community engagement, and are assisted by the VC Cares Committee and student volunteer body.

Student Wellbeing

In addition to one-on-one consultations, SRMs are responsible for the social, emotional, intellectual and physical wellbeing of students on campus.

Students are encouraged to participate in awareness campaigns around substance abuse, physical and mental health, family matters, gender issues and the environment. SRMs also run mentorship programmes and life skills workshops like VC101 that prepare students for the tertiary environment, and the Girltalk Programme where female students discuss women's issues.

Through support measures, and by tending to the social and emotional aspects of life, we can equip students with crucial life skills that will help them thrive personally and socially.

Finding Balance

Learning goes beyond the lecture room. We believe that finding the right balance between academics, sports and social activities contributes to overall academic success. That's why our student offering includes a variety of activities.

Get Sporty

Catering for the semi-professional, social athlete, team player or individual sportsman and woman, we offer sporting programmes for everyone. To participate in sport at The IIE's Varsity College, you must be registered with the VC Sports Club. There are many different sports clubs to get involved in.

VC SPORTS CLUB

The VC Sports Club includes different types of clubs: National Sports, Campus Team Sports, Sports Life and Lifestyle Sports clubs. Not every campus offers the same sports clubs and the offering per campus depends on the available facilities. All major sports clubs offer expert coaching to students and most of the clubs' 1st Teams compete in the top tier of their local leagues or competitions.

National Sports Clubs

The IIE's Varsity College offers the following Major Sports Clubs to students, Alumni and the public:

- VC Rugby Club
- VC Water Polo Club
- VC Hockey Club
- VC Netball Club
- VC Softball Club
- VC Football Club
- VC Athletics Club

Sports Life Clubs

Sports Life Clubs focus on outdoor activities that are fun, healthy and geared towards the individual – the sort of sports that you'll participate in for the rest of your life. These are only offered to bona fide students and include cycling/mountain biking, running, canoeing, surf skiing, golf, surfing and triathlons.

Campus Team Sports Clubs

Participation in Campus Team Sports can either be competitive or social. These clubs include soccer, netball, cricket, hockey and touch rugby/TAG rugby. Most campus teams compete in

the top tier of their local action leagues or, alternatively, you can enter your own team into the internal VC leagues.

Lifestyle Sports Clubs

The VC Sports Club also offers social lifestyle sports clubs like hiking, dodgeball and fitness clubs.

VC Sports Club Committee

The VC Sports Club is managed by the Campus Sports Coordinator who appoints Club Administrators to run each Sports Club. Passionate students who have the knowledge and admin skills can be appointed Sports Club Administrator, and will be responsible for organising training, scheduling racing opportunities, confirming team lists and supporting beginners.

University Sport South Africa (USSA)

We participate in a variety of different USSA tournaments annually: athletics, canoeing, golf, netball, rugby (15s & 7s), surfing, water polo, cycling, football, hockey, softball and swimming, and our teams have achieved great success in recent years.

VC Sports Club Bursaries

Students at the top of their game are encouraged to talk to us about available sports bursaries. The VC Sports Club has bursaries for major sports clubs or those who believe they have the administration skills or passion to be a Sports Club Administrator.

VC Sports Club Awards

Each year we celebrate the achievements of our athletes. Awards include the prestigious VC Sports Club All Star award, awarded to a student with the highest level in both sports and academics. Other awards include: Sportsman and Sportswoman of the Year and Club Administrator of the Year.

Social and Cultural Life

Students are encouraged to 'get social'. Participating in social and cultural activities gives students the chance to learn a range of skills that are essential for life and the New World of work. These activities hone communication, people, emotional intelligence and creative thinking skills.

The IIE's Varsity College offers:

Orientation Week (O'Week): To familiarise you with VC, your campus and fellow students.

Yearly Social Events: From sunset cruises and the Spring Bash to the End of Year Party.

Meridian Hour: On-campus social, cultural and community initiatives – spot competitions, NGO Open Days, Open Mic sessions and Braais.

VC Societies and Cultural Groups: Book clubs, drama groups, poetry sessions and musical evenings.

Campus Events: Organised by the campus and including quiz evenings and LAN parties.

Making all of this happen on campus are the PR and Events Coordinator (PEC) and the appointed Social Committee who plan and implement all the large-scale social events on campus.

Becoming engaged and immersed in the full student experience is important as you will make lifelong friends and build social and networking skills that will form a foundation for future success.

Community Engagement

The IIE's Varsity College aims to instill a sense of citizenship and social responsibility in our students through environmental and community engagement projects.

The VC Cares Committee (our student volunteer body) gives members the opportunity to lead fellow students through initiatives like fundraising, awareness drives and outreach programmes. This is truly rewarding, helping students grow as individuals and become socially aware, empowering themselves and those they help.

Professionally, students gain valuable practical experience in the field of event management and marketing by getting involved in projects like Cell C's 'Take a Girl Child to Work', Mandela Day, CANSA Shave-A-Thon and Relay for Life.

Community engagement is crucial in allowing us to provide the full student experience that makes The IIE's Varsity College unique, contributing to the holistic development of our students.

Adopt-a-School Foundation

The Adopt-a-School Foundation aims to be a positive force in changing the future of education in South Africa. The foundation addresses the academic, infrastructural, social and curriculum needs in under resourced schools around SA. To date, they have adopted almost five hundred schools.

The IIE's Varsity College supports the foundation by hosting collection drives on campus and providing language and literacy support. Each campus gets personally involved with a school by planting vegetable gardens and helping to meet smaller day-to-day needs.

+++

Preparing for your Career

The IIE's Varsity College focuses on preparing students for the New World. **The Career Centre** provides students with opportunities to build skills and a network to get their CVs to the top of the pile.

The Career Centre's strong business relationships give students the opportunity for possible work experience and graduate placement. Find your Career Centre on campus or access the Career Centre platform online.

What does the Career Centre provide?

- **Career and growth development, coaching and personal mentoring.** A Career Centre Coordinator (CCC) gives advice and sets objectives. The CCC helps with CV design, interview techniques and soft skills development.
- **Interactive Work Readiness Workshops** with industry experts covering topics like EQ, personal branding and social media networking.
- **Career information sessions, fairs and work expos** with different companies, offering networking and full-time or graduate work opportunities.

- **Access the platform via the VC App or website for a variety of interactive career tools:** CV and cover letter templates, e-learning content, as well as part-time and full-time work opportunities. The VCApp keeps you in the loop with Career Centre events.

As a member of the South African Graduate Employers Association (SAGEA), The IIE's Varsity College has access to more than 340 members, representing over 200 organisations from ABSA to Woolworths – all potential employers. This is where engagement with the Career Centre really pays off.

The Success Rate? During 2019:

- 80 skills workshops were facilitated
- Over 780 students/graduates secured part-time and full-time employment

Find out more about The IIE's Varsity College Career Centre from your campus Career Centre Coordinator.

**At The IIE's Varsity College, we go beyond knowledge
We teach you what to do with knowledge
So that you'll ask the right questions,
Find better solutions,
Make smarter decisions
And succeed in the New World.**
